

## REMARKS

Applicants have replaced the abstract and amended the claims to improve the claim language, to incorporate the limitations of claim 10 into claims 1, 5 and 7 and to eliminate improper multiple dependent claims. Applicants have also amended the specification to correct some headings, to eliminate references to the claims in the specification and to rearrange the specification in accordance with usual U.S. practice. The drawing amendments correct obvious reference numeral errors. Applicants attach a clean copy of the application as amended above in the second Appendix and replacement drawings in the third Appendix. No new matter has been added, nor has the claim scope been narrowed by these amendments.

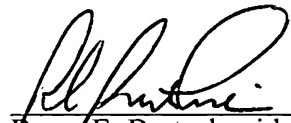

Early action allowing claims 1-9 and 11-19 is solicited.

In the event that the transmittal letter is separated from this document and the Patent and Trademark Office determines that an extension and/or other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. 03-1952 referencing docket no. 358362011300.
